

# 25 HEAVY WORK ACTIVITIES & IDEAS FOR SMALL SPACES

Proprioceptive activities are often referred to as “heavy work”. Heavy work is accomplished by working against weight or resistance through activities like shoveling snow, playing tug of war, riding a bike, swimming, pushing a heavy strollers, or pulling a loaded wagon.

But heavy work activities don't always have to involve a lot of space. Whether you're a teacher with limited classroom space, a therapist who works in the corner of a crowded hallway, or you're stuck in the waiting room at a doctor's office and wanting to calm your anxious child – try these heavy work activities to provide that calming proprioceptive input!

1. Massages
2. Bear hugs
3. Play with a Body Sock
4. Yoga Poses
5. Pulling resistance bands with hands
6. Playing passing games with weighted stuffed animals
7. Weighted sensory bottles
8. Animal walks
9. Wall pushes
10. Chair dips
11. Tossing and catching heavy bean bags
