

# I can learn

(teaching students with Autism Spectrum Disorder)

I like to have work I  
can do by myself.

(give independent work)

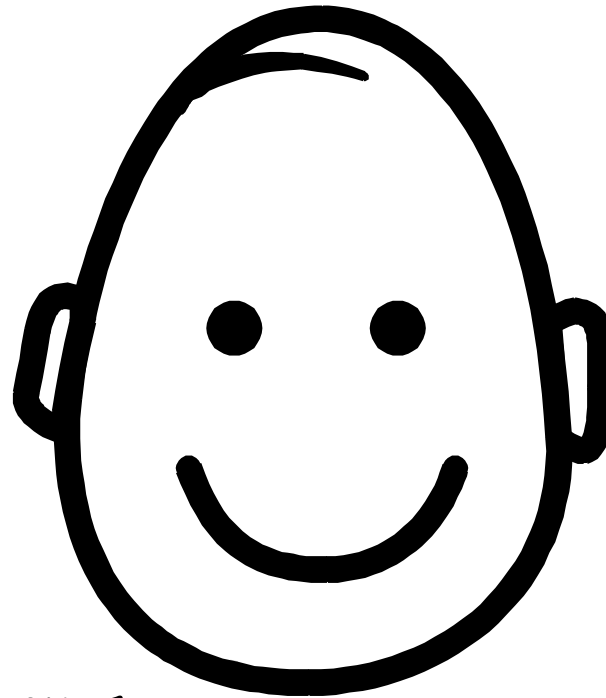

I like to learn by doing  
it right over and over.

(practice errorless learning)

I like to have picture cues  
and physical prompts.

(use visual picture symbols and touch cues)

I like to hear only ONE  
verbal direction.

(give direction once)

I like to have time  
to think.

(wait a minute before expecting a response)

I like it when I know  
I'm doing it right!

(give praise)
